Returned to applicant for correction.

Corrected application filed.

Map filed. SEP 14 1992

The applicant. Southern California Edison Company, c/o P. Hamilton (G03-3-G10)

2131 Walnut Grove Avenue

Street and No. or P.O. Box No.

Rosemead

City or Town

California 91770

State and Zip Code No.

hereby make.... application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) 1909, Chino, California

1. The source of the proposed appropriation is Underground

Name of stream, lake, spring, underground or other source

2. The amount of water applied for is 0.07

One second-foot equals 448.83 gals. per min.

second-feet

(a) If stored in reservoir give number of acre-feet 45

3. The water to be used for Industrial Use--Dewatering for remedial cleanup of degraded

Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use. water

4. If use is for:

(a) Irrigation, state number of acres to be irrigated.

(b) Stockwater, state number and kinds of animals to be watered.

(c) Other use (describe fully under No. 12. "Remarks")

(d) Power:

(1) Horsepower developed

(2) Point of return of water to stream

5. The water is to be diverted from its source at the following point NW $\frac{1}{4}$  SE $\frac{1}{4}$ , Section 23, T32S, R66E

MDM Clark County, Nevada, or at a point from which

Describe as being within a 40-acre subdivision of public

the NW corner of said section 23 bears N 45°16'32"W 4015.27 ft. See

survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.

supportive map for the bearing and distance of the well (MH-30).

6. Place of use Mohave Generating Station; NE $\frac{1}{4}$ , SE $\frac{1}{4}$ , Section 23, T32S, R66E

Describe by legal subdivision. If on unsurveyed land, it should be so stated.

7. Use will begin about January 1 and end about December 31, of each year.

Month and Day

Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Existing remediation well with buried

State manner in which water is to be diverted, i.e. diversion structure, ditches and

pipeline system moving water to plant facilities.

fumes, drilled well with pump and motor, etc.

9. Estimated cost of works.....\$30,000

10. Estimated time required to construct works.....Well and pipeline are complete.  
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use.....Existing well

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use:

This application is for an existing well within the NW $\frac{1}{4}$ , SE $\frac{1}{4}$ , Section 23. The well was installed in cooperation with the Nevada Division of Environmental Protection to remediate degraded groundwater. Water is pumped to primary softener, treated, and used as a replacement for an equal amount of Colorado River water allotment.

### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance for pollution control as mandated by orders issued by the Nevada Division of Environmental Protection and subsequent correspondence with said agency. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion. It is also understood that this right must allow for a reasonable lowering of the static water level of permittee's well due to other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. The State retains the right to regulate the use of water granted herein at any and all times.

\* The right will cease to exist upon termination of clean up activity as determined by the Nevada Division of Environmental Protection.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed.....0.07 cubic feet per second.

Work must be prosecuted with reasonable diligence and be completed on or before.....

Proof of completion of work shall be filed before.....

Application of water to beneficial use shall be filed on or before.....

Proof of the application of water to beneficial use shall be filed on or before\*.....

Map in support of proof of beneficial use shall be filed on or before.....

Completion of work filed.....

Proof of beneficial use filed.....

Cultural map filed.....

Certificate No. .... Issued.....

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.  
State Engineer of Nevada, have hereunto set my hand and the seal of my

office, this 13th day of November.....

A.D. 1992

*[Signature]*  
State Engineer

(PERMIT TERMS CONTINUED)

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit is issued pursuant to the provisions of NRS 533.4375. Well drillers reports for any well(s) drilled under this permit shall be filed within 30 days from the completion of the well.

Within 30 days after the completion of the project, the permittee shall notify the State Engineer of such completion and all wells shall be plugged and abandoned in accordance with Chapter 534 of the Nevada Administrative Code.
